SUMMARY

Results-driven **SAP ABAP with FIORI Developer** with 2.5 years of experience in building complete, production-ready applications from scratch. Proficient in **OData service consumption** and creation using **SEGW** as well as **ABAP RAP / CDS-based services**. Consistently deliver intuitive, responsive, and high-quality user experiences while effectively **troubleshooting** and optimizing complex scenarios.

Experience

Accenture Solutions Private Limited

August 2023 – Present

SAP ABAP Consultant (Client: NCRTC)

New Delhi, India

- Created, maintained, and extended 5+ OData services using both classic SEGW (Gateway Service Builder) and modern RAP framework, including entity sets, associations, navigation properties, function imports, and annotations.
- Exposed **CDS views as OData V2 services** using **SAP RAP** (RESTful ABAP Programming Model) and developed Fiori List Reports and analytical apps for real-time data visualization and reporting.
- Developed OData-based APIs with **CRUD**, deep insert, and document upload/download capabilities.
- Working experience on SAP ABAP RICEFW objects like **Reports, Adobe Form, Enhancements**.
- Experienced in creating and managing **Data Dictionary** components like tables, domains, data elements, and views.
- Collaborated closely with **cross-functional** teams to gather requirements, translate business needs into technical specifications, and deliver aligned solutions within project timelines.
- Strong knowledge of Debugging techniques for both SAP frontend (Fiori/UI5) and backend (ABAP) applications to troubleshoot and optimize performance.
- **Resolved high-priority (P1/P2)** production incidents through advanced root-cause analysis, debugging, and rapid fixes, minimizing business downtime and ensuring system stability.

SAP FIORI

- Developed full-stack applications using SAP Visual Studio Code for seamless front-end and back-end integration.
- Designed and developed custom responsive **SAP UI5/Fiori applications** from scratch, leveraging Views, Controllers, JSON Models, and best-practice Fiori design guidelines to deliver intuitive user experiences.
- Independently led **end-to-end Application development** for 2+ modules (including MM, FI, and HCM), managing full lifecycle from requirement gathering to frontend UI5 implementation and backend OData creation as well as integration.
- Configured and optimized SAP Fiori Launchpad content using **Spaces, Pages, Catalogs, and Tiles** for multiple business modules, ensuring role-based, user-friendly access and improved navigation for end users.

SKILLS

Technical Skills: SAP OData Service Creation and Consumption, SAP RAP (RESTful ABAP Programming), ABAP Development, SAP UI5 (Views, Controllers, Models), FLP Admin, SAP UI5, JavaScript, XML, adobe forms, LSMW.

Tools: SAP S/4 HANA, SAP Fiori, ADLC, Eclipse IDE, SAP GUI, Visual Studio Code.

SOFT SKILLS

- Logical thinking and problem solving skills.
- Proactive, detail-oriented, and highly accountable.
- Comfortable working under pressure in production environments.

EDUCATION

ABES Engineering College

B.Tech in Information Technology – CGPA: 7.9/10

August 2019 – June 2023

Ghaziabad, UP
